

Preliminary Fish Habitat Water Type Map QUESTIONNAIRE FORM

Preliminary Fish Habitat Water Type Maps of Western Washington are now available for public review. DNR is interested in your feedback on these maps. This form is provided for your convenience. Comments received before October 1, 2004 will assist in developing information for the Forest Practices Board – meeting in November.

Please answer the following questions and return the form to the address below. If you have any questions contact Dennis McDonald, Project Manager (360) 902-1849 or email dennis.mcdonald@wadnr.gov

Preliminary Fish Habitat Water Type Map
DNR - Forest Practices Division
P.O. Box 47012
Olympia, WA 98504-7012

How is the map information? Was there enough information to explain the content of the map?	
How well does the map show existing streams?	
How accurate are the water types between fish (Type-F) and non-fish (Type-N) streams?	
How close does the fish/non-fish (F/N) break occur near the location of a natural fish barrier?	
Other Comments:
